<b>Minimum altitude</b>	1'386 m
<b>Maximum altitude</b>	1'520 m
<b>Start/ Arrival</b>	Tourbillon parking

**Period**  
May to november

\* Depending on snow conditions

## Description

Take the Grande Corniche from Tourbillon, in the upper part of Ovronnaz. The forest trail leads into the woods, then crosses the Salentse and continues to Plan Passé. It then returns to the river and Lui Teise (a cross-country track). Follow the Petite Corniche to return to Tourbillon.

The seven information panels are fairly close to each other. They are an opportunity to continue your walk accompanied by the Ghost of the Saillon Meadows, the Witch of Buitonne de Fully or the Vouivre (Dragon or Guivre) of the Poteux de Leytron. A number of sculptures are placed along the walk.

These fascinating tales will magically take you back to the daily lives of our ancestors when evenings by the fire were a time for work and sharing, and tasks became less monotonous thanks to storytellers.

## Did you know?

The Legends trail was designed by the students of the cycle d'orientation of Leytron 2012. The project combines hiking and heritage education. Local legends and myths are described on the six information panels along the trail.

Discover the fictional and historical past of the ancestors of Leytron and its outlying hamlets.
